

LASER DISTANCE METER

TECHNICAL DATA

FEATURES

- Ultrasonic distance meter measures in imperial/metric
- Laser target pointer
- Start point selection
- Measurements taken from front or rear of unit
- Data store/recall
- Computes areas and volumes
- 5 groups of value in memory
- Sum of lengths
- Auto/manual shut-off
- LCD backlight
- Audible confirmation of reading
- Includes soft carrying case and batteries

SPECIFICATIONS

Measuring Range: 0.5 to 16m (1.64 ~ 52.48 ft)

Accuracy: $\pm 1\%$ of reading + 1 digit

Power Supply: Single 9V battery

Current Consumption: Stand-by current: $\leq 1 \mu\text{A}$;
Operating Current: $\leq 60 \text{ mA}$

Auto Shut-Off: 100 seconds

Dimensions: 20 x 85 x 70 mm

Weight: 192 g

ORDERING INFORMATION

DM-01..... Laser Distance Meter

CERTIMT5.....NIST Calibration Certificate

DM-01-NIST Distance Meter & NIST
